### Building-in Edge Blending

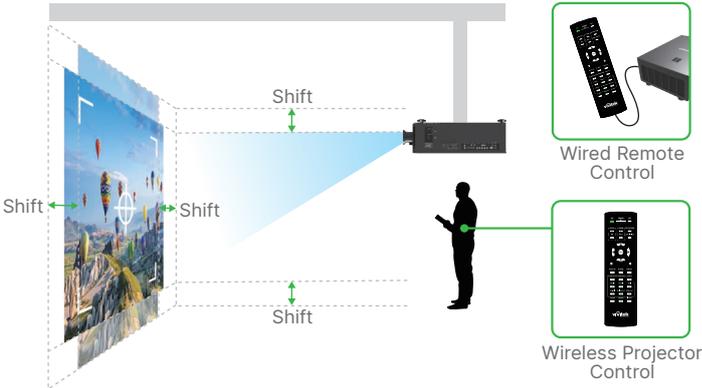

The DU9900Z features edge-blending capability. Multiple projectors simultaneously project a combined image for a stunning display and seamless image on large displays.

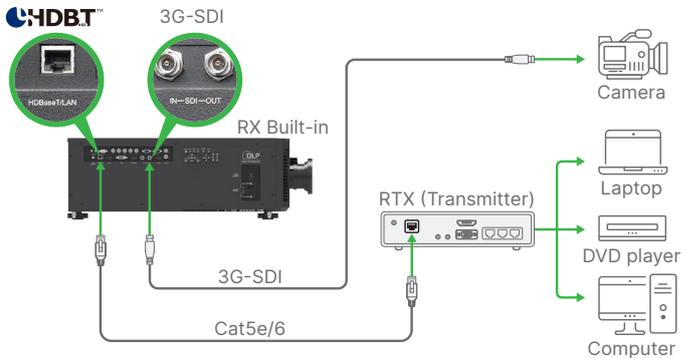

**Zoom, Focus, Lens Shift, and Memory**

The DU9900Z comes with powered zoom, focus, and lens shift (horizontal/vertical) for easy adjustment and positioning flexibility. Lens Positioning Memory also offers quick recall of user-defined lens positions (focus, zoom, and lens shift) for easy setup to ensure perfectly proportioned images.

**Supports 3G-SDI & HDBaseT™ Connectivity**

The DU9900Z has built-in 3G-SDI and HDBaseT™ interfaces for long-distance signal transmission of high-quality audiovisual content. HDBaseT™ reduces cabling requirements and installation, saving time and costs.

**Liquid Cooling System**

Vivitek's DU9900Z features a novel cooling system based on three components: Liquid, Air and Thermoelectric (TEC) cooling to reduce and dissipate heat from critical components to ensure stable operation and longevity.

**PJ Control Tool**

Vivitek's PJ Control software is a tool for controlling Vivitek projectors. It can be used to manage multiple projectors, helping users control viewing options, settings, and scheduling, and it also allows for the adjustment of display features over a network.

**IP6X Sealed Optical Engine Certified Design**

The DU9900Z series complies with high standards for protection against dust, ensuring consistent brightness over time.

**Picture-in-Picture / Picture-by-Picture**

The DU9900Z features Picture-in-Picture and Picture-by-Picture modes. Signals can be delivered from two different digital input sources at the same time.
